#### Final Response ATIPP Access Request 24-748

The Department of Energy, Mines and Resources has searched and has identified records responsive to Access Request 24-748 noted below:

Please provide correspondence, including briefing notes, emails, drafts, memoranda and meeting notes, related to meetings that took place on September 13, 2022 and October 31, 2022 between representatives from Victoria Gold Corporation and the Government of Yukon. These meetings concerned Victoria Gold's water license requirements to build cyanide destruction systems at the Eagle Gold Mine, specifically around whether housing cyanide destruction within the mine's ADR Plant satisfied its water license requirement, when the company's initial plans included cyanide destruction capabilities within the MWTP.

Please provide documents and communications originating within the Executive Council Office and Department of Energy, Mines and Resources, including communications between EMR staff and Victoria Gold representatives. Please exclude publicly-available regulatory filings, such as those available through the Yukon Water Board. Timeframe: September 9, 2022 - November 30, 2022
