Hi Fiona,

I am not sure if you have some time for a quick chat today, but I was hoping we could connect so that I could ask your advice on an EDU matter that is connected to Justice. The following article was published by CBC on July 16, and we are receiving emails from concerned parents who are looking for an update from EDU on the situation.

thought it would be good to touch base and get a sense of your recommended approach.

My schedule is fairly flexible today, so if you have a few minutes for a quick call it would be greatly appreciated!

Cheers,
