21-502	Seeking all information that can be shared regarding the development and decision to implement the Sheep and Goat control order 2018-001. This includes the two departments of Energy Mines and Resources and the department of Environment. Specifically looking for correspondence and/or comments received from stakeholders if possible and the research that was used in the implementation decision. Timeframe: January 1, 2017 - December 1, 2021 ADDITIONAL INFORMATION: the applicant rephrased the section regarding the stakeholders' records. I've highlighted the changed wording to the statement below: "Seeking all information that can be shared regarding the development and decision to implement the Sheep and Goat control order 2018-001Including all correspondence and/or comments received from stakeholders if possible and the research that was used in the implementation decision."	2021-12-24	n/a	n/a	n/a	n/a	n/a	n/a	n/a
21-467	Hi there, I am looking for a report completed by from Boreal Logic for the Yukon Government. "YG Environment Yukon wants to review whether the human-wildlife conflict (HWC) mitigations recommended by Environment Yukon and the Yukon Environmental Socio-economic Assessment Board (YESAB) and mandated operating conditions by regulators are effective at reducing conflicts with wildlife, especially bears. Some miners have raised questions and concerns about the mandated mitigations. Environment Yukon recognizes that it is necessary to review the current regulations to ensure that they are accessible, fair and effective at reducing the number of bears that are destroyed and the time and effort that		2022-01-26	Granted in Part	n/a	n/a	Section 74(1)(a)	n/a	48

	miners have to spend dealing with conflicts on their claims. Obtaining feedback from placer and quartz miners in Yukon is vital to this review process." The final products, in electronic format, including but not

INFORMATION:
Clarification #1: Would the applicant be interested to
pursue this request informally and work with the branch
directly? Is the applicant only looking for general statistics
for the spills within the specified timeframe Would the
applicant be willing to be more specific/narrow the scope
about what they are looking for either:
by location,o area, and
company name, etc. to narrow
down the volume of the records?
Answer #1: I am basically looking for an update of the file I
received in January 2020, for Request A-8065
Clarification #2: Considering the previous request included
records from December 1, 2017 to November 19, 2019;
we would like to ask if the applicant is willing to narrow
the request to just spills reported after Nov. 19, 2019 (which was when the records stopped in the previous
request) and any specific follow-up information on spills
prior to that? Answer #2: That will be fine.
1

full, including temperature from 2 governme 2016. I am Clarification cause harm this, the Dest the approximation to the approximation of the approximation of the soil in the soil i	ar data for Yukon North Slope Grizzly Bears, in g all data fields (e.g., coordinates, time, PDOP, re, motion, accelerometer, etc). Data range 003 to 2011. Data was provided to non-interesting the data be sent to me in electronic Excel file format. ADDITIONAL INFORMATION: #1: There is data within this request that may to the bear populations if released. In light of partment of Environment would like to know if licant is willing to narrow the scope of the tes field to exclude bear denning locations? If am actually interested in the full data set and that exclusion of data that might reveal a denight be liberally applied to any spring and fall lit would be best if the public body did not data. The data I am requesting is greater than d, and given the dynamics of permafrost and is region, and the denning behaviour of bears, en locations that could be discerned from this ave no probability of being currently used or future. Hopefully, that ameliorates the public notern about implications to conservation of bears. In #2: We would like to note a few corrections the timeframe for the applicant's consideration. In records, the timeframe for the data are from the data did not include collar data but information. The data was released to a third 7. This is just to let the applicant know as this	2021-11-08 2	021-12-10	Records Withheld in Full	n/a	n/a	Section 75(a)(ii), Section 75(a)(vi), Section 76(1), Section 78(b)	Y	4

Oceans Canada); and								
Laura Cabott, Dale Eftoda, Bryony McIntyre,								
Lawrence Joe, Dennie Nicloux, Steve Karam, and								
Andrew Reid (Yukon Environmental and Socio-								
Economic Assessment Board).								
The time period of the records sought is July 1, 2019 to								
October 31, 2020								
Further to ATIPP number A-8502 related to a								
Development Permit and or Discretionary Use Permit								
issued for a new abbatoir on Lot 1033, Grizzly Valley,								
Yukon AND referencing YESAB file number 2018-0030								
we request records or confirmation of septic holding tank								
and/or septic field as installed on this property. Timeframe:								
01 January 2015 - 31 December 2018			C			C1'		
21-282 ADDITIONAL	2021-09-13	2021-10-14	Granted in Part	n/a	n/a	Section	n/a	16
INFORMATION: by way of			Part			70(1)		
clarification and								
confirmation:								
The original DuP for new abattoir on Lot 1033								
(accessed under ATIPP a-8052) indicated a septic								
system would be required to be installed as per								
existing regulations								

	YESAB file 2018-0030 project description references a 5,000 gallon septic tank was installed, but does not provide location and or installation informationOur current application is strictly related to information on the septic tank/field only.								
21-262	YAA would like to know how much funding the Yukon Fish + Game Association received from Government in the time between April 01, 2019 - March 31, 2020	2021-08-20	2021-09-29	Granted in Part	n/a	n/a	Sectio n 70(1), Sectio n 70(3)(a)(viii)	n/a	10
21-247	Upon noticing the names of persons who won the lottery for Permit Harvest Authorization (PHAs) are no longer posted on the web page of this Dept. for this hunting yea, I requested a list of the chosen names in all game categories be sent to me. They responded by saying due to Privacy issues they no longer are making this public. List of names demonstrating to the public who were drawn for each year for each category does not give any other information about that person other than the name of winner/s. It is vastly more important that the public be involved with this process of choosing PHAs by viewing these winners names, than what they contend is a breach of privacy. If this policy continues then there is absolutely no accountability to the PHA process, other than Trust the Bureaucrats. If the Dept. is afraid of this privacy, then they should have a waiver signed for each permit applicant. Please provide the records of all the names chosen for each animal species drawn as the result of the PHA lottery. the Ministry /Department of Environment and its	-
predecessor agencies/ministries, hereafter referred to as	
the "Ministry": (A) the following information about	
shooting (AKA firearm/weapon discharge, AKA officer-	
involved-shooting, AKA agent-involved-shooting)	
incidents by the Ministry's	
employees/members/officers/agents/officials/officers/rang	
21-007 ers/wardens (hereafter 2021-04-19 n/a n/a n/a n/a n/a n/a n/a	n/a
referred to as the "members"): (A.1) by year, the number	11/a
of Ministry-involved-shooting incidents per year; (A.2) by	
year, the (i) names, (ii) calibres, and (iii) types of	
weapons/arms (e.g Taser, 9mm GLOCK service pistol,	
.223 C-8 carbine, crew-served weapons, etc.) used by a	
member of the Ministry in that year's Ministry-involved-	
shooting incidents; (A.3) by year, the number of times	
each type of weapon/arm was used by a member of the	
Ministry in that year's Ministry-involved-shooting	

incidents; (A.4) by year, the number of shots discharged by each type of weapon/arm that was used by a member of the Ministry in each of that year's Ministry-involved-shooting incidents; (A.5) by year, the number of shots per weapon/arm type discharged by a member of the Ministry that did not hit the anticipated target (i.e. "misses" per arm/weapon type); (A.6) by year, the number of members of the Ministry who discharged arms/weapons in each of that year's Ministry-involvedshooting incidents (i.e. how many shooting incidents involved 1 member of the Ministry discharging a weapon/arm, how many shooting incidents involved 2 members of the Ministry discharging a weapon/arm, etc). Timeframe: 01 January 2007 - 31 December 2020 Additional Information: First, please note that access request #21-007 only applies to records in the custody/control of the Department of Environment and that the Animal Protection Officer recently moved here from the Department of Community Services so you might want to submit a request for that Department. (1) I will try to contact the other department as well (thank you); We would also like to get clarification on the meaning of the word "weapon". I am told that the exact meaning is "any thing used, designed to be used or intended for use. (a) in causing death or injury to any person, or. (b) for the purpose of threatening or intimidating any person" (and I would imagine that most if not all of our firearms, etc. are used against wildlife). (2) That is my understanding of the term as well. To clarify, I am focussing on firearms, unless there is information on Tasers and "launchers" as well. We would like further clarification on the definition and scope of "shooting incidents". Specifically, we would like to know whether discharging firearms during firearms training and certification qualify as a "shooting incident"?

	Please provide information on discharges in both training and "duty" capacities. Finally, please note that most of our branches do not keep records/metrics of "shooting incidents" or shots discharged involving dangerous wildlife or conflict wildlife response with the exception of responding to predatory wildlife attacks against humans (wildlife attacks). We do, however, keep records of officer involved incidents related to "use of force" involving persons (though not necessarily involving weapons as defined above). (4) Use of Force capacities are acceptable (as well as whatever wildliferelated information is available electronically).								
21-014	all environmental contamination documentation on former North 60 bulk fuel plant in Ross River	2021-04-16	2021-05-31	Granted in Part	n/a	n/a	Section 70(1)	n/a	46
21-008	For the period January 1, 2007 to December 31, 2020 for the Ministry /Department of Environment and its predecessor agencies/ministries, hereafter referred to as the "Ministry": (A) All information, files, reports, presentations, recommendations, communications, consultations, decisions, and requests for proposals (RFP's) pertaining to the Ministry/Department of Environment and its predecessor agencies/ministries: selection, approval, adoption, acquisition, deployment, user-qualification-metrics, initial & follow-up training requirements, issuance, usage, storage of (A.1) semi-automatic .223 / 5.56 mm firearms [AKA patrol carbines, AKA patrol rifles, AKA the C-8 and/or C8]; and (A.2) semi-automatic .308 / 7.62 mm firearms [AKA patrol carbines, AKA patrol rifles]. Timeframe: 01 January 2007 - 31 December 2020	2021-04-14	2021-09-14	Granted in Part	n/a	n/a	Section 70(1), Section 76(1), Section 77(1)(c), Section 79(a)(ii)	n/a	392
A-8760	A document titled "Grizzly Bear Management Guidelines for Yukon" written by Ramona Maraj, and provided to Rob Florkiewicz on April 9th, 2010 at 5:14PM by email. The email subject line read "Grizzly Guidelines, Take 1". The email was copied to Shelley Marshall. The document was subsequently circulated to managers (e.g.,	2021-03-31	2021-04-15	Granted in Part	n/a	n/a	Sectio n 16(1)(a); Sectio n	Y	29

	Todd Powell, Karen Clyde, Jamie McLellan), the fish and wildlife director (Dan Lindsey) and to Jean						16(1)(b)		
	Carey, communications biologist. The document was also						٠-,		
	saved on common drives for managers and Rob								
	Florkiewics' personal drive. This document has been								
	retained to-date on common drives in the original format								
	as well as several edited versions. I am requesting the								
	original version sent on April 9th, 2010 and am requesting								
	an electronic version of this document (e.g., pdf or word								
	format). This document appears to								
	have been requested in previous ATIPP requests. Timeframe: 01 April 2010 – 30 April 2011								
	This request is for records related to Kusawa Park
