**RE: Final Response Access Request #22-145**

**Decision**

The Department of Environment has searched Animal Health Unit, Client, Business and Technology Solutions branch, Deputy Minister's Office and Fish and Wildlife branch and has identified records responsive to Access Request #22-145. The final response on the information is as follows:

**Access Granted in Full**

The Department of Environment is granting access to information relating to the request noted below:

*Average horn length, average of the circumference measurements (ie measurement at bases quarter 1, 2, 3) and average age of all Dall Sheep harvested over the last 10 years by game management zone/subzone. If its not possible to provide all of the various circumference measurements please just include the circumference of the base measurement. Timeframe: January 1, 2017 - December 1, 2021*

**Additional Information:**

- *The 10 years range should be between August 1, 2012 to October 1, 2021*

As you may know, the department provided a notice regarding the request for the sheep horn measurement at bases quarter. The Department of Environment does not collect circumference information in the way that was requested (e.g. base quarters of the horn). Instead, the department measures the circumference at each age band.

.../2

The average of the circumference measurements were included for the sake of completeness, but these values will naturally be skewed by the number of sheep within each age band.

A copy of the records are attached to this letter.

There is no charge to the applicant.

**Right to Complain**
