RE: Final Response Access Request #22-141

Decision

The Department of Environment has searched Policy and Planning branch and Deputy Minister's Office and has identified records responsive to Access Request #22-141. The final response on the information is as follows:

Access Granted in Part

The Department of Environment is granting access in part to information relating to the request noted below:

I want all correspondence regarding Yukon government's review of outfitters' guidelines. As well, I am looking for all emails concerning changes to the quota system, specifically changing from multi-year quotas to single-year quotas. I am also hoping for all email correspondence from outfitters and the Yukon Outfitters Association to the Department of Environment regarding potential changes to the quota system. Timeframe: January 3, 2022 - April 8, 2022

Additional Information:

Hoping to narrow this request down.

Here are what I'm hoping for:

- 1) Please exclude any and all legislation.
- 2) Exclude stuff from communications and public engagement.
- 3) Exclude materials from the Fish Wildlife Branch.
- 4) Reduce the timeframe from four to three months.

5) I would like to keep correspondence that is included in the Deputy Minister's office. However, I only want access to emails. The rest -- powerpoints, reports and spreadsheets -- can be removed.

Question: When the applicant is asking to reduce the timeframe from four months to three months, which months would they like to be included? For example, would they prefer February to April or January to March?

Let's go from February to April, please.
