1 Intro

The Yukon Land Titles Registry (YLTR) is a platform to receive, process, search and manage applications to Land Titles. This includes conversion of data from the Land Information Management System (LIMS) to YLTR, financial transactions, image management, client management, plan and parcel management and communications.

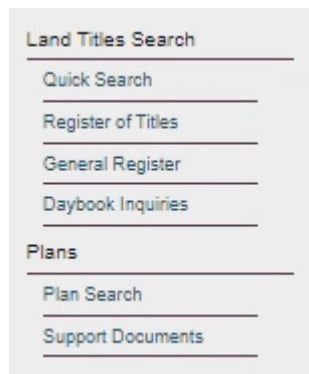

This document provides information about navigating and searching the YLTR portal.

It is recommended that once a Title is viewed it should be downloaded or printed as the system will charge a fee each time a Title is viewed.

2 Ways to search

There are many ways to search in the system:

- **Quick search** lets you search by land description, owner name, parcel number, title number and condo number and brings you to the Title faster.
- **Register of Titles** lets you search by a wider range of criteria. It allows you to view more information on converted Titles, instruments, dependent Titles and more.
- **General register** searches against a person's or company's name, not against the legal description or Certificate of Title. These documents include writs of seizure and sale, assignment in bankruptcy, power of attorney, letter of administration, grants of probate, guardianship orders, standard mortgage terms, receivership order and other court orders.
- **Plan search** allows searches by LTO plan or CLSR (Canada Lands Survey Record) numbers to find images of plans.

3 Login

To login to the portal, click on the URL below, then click on **Login** and provide your credentials.

4 Register of Titles Search

Click on **Register of Titles**. The **Search By** field has the following options in the drop-down menu:

The screenshot displays the 'Land Titles Search' portal interface. On the left, a sidebar contains navigation links: 'Quick Search', 'Register of Titles' (highlighted in yellow), 'General Register', 'Daybook Inquiries', 'Plans', 'Plan Search', and 'Support Documents'. The main content area is titled 'Search' and includes a 'Client Reference #' field. The 'Search By' dropdown menu is open, showing a list of search criteria: 'Land Description', 'Attachment Number' (highlighted in blue), 'Client Number', 'Discharge Number', 'Feature Number', 'Interest Number', 'Interest Register Number', 'Land Description', 'Owner Name', 'Packet Number', 'Parcel Number', 'Pre-Conversion Instrument', 'Pre-Conversion Title', and 'Title Number'. Below the dropdown, there are input fields for 'Lot:', 'Block:', 'Group/Quad:', 'Subdivision:', 'Community:', 'Plan:', and 'Ext:'. A 'Search' button is located at the bottom of the form.

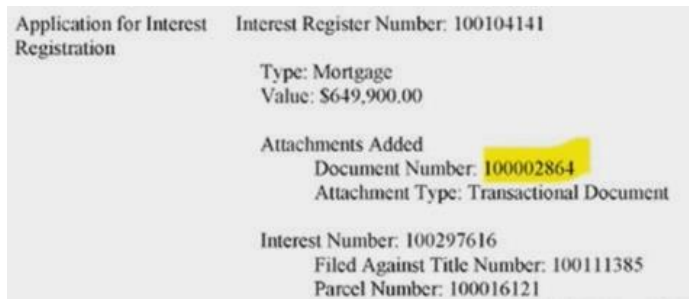

Note: This document specifically deals with Advanced Search using attachment number, client number, discharge number, feature number and packet number.

4.1 Search by attachment number

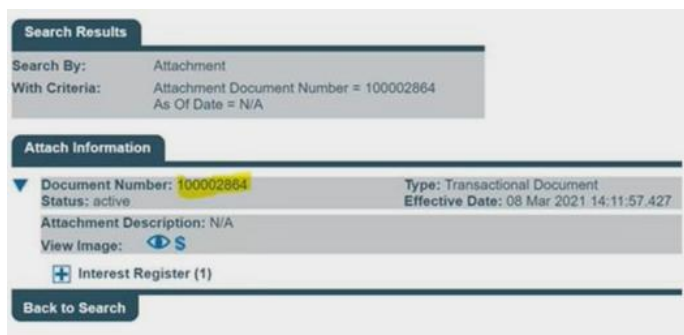

Attachments are documents that are registered as Instruments or Caveats.

Where to find the attachment document number:

1. On the **verification statement**.

2. On the **Interest Register**. Navigate to **Interest Register information**, then click on the **Interest Register document icon** to see the **Document Number**.

How to access Interest Register Information:

1. Click on **Register of Titles**. Select **Attachment Number** in **Search By** dropdown.
2. Enter the Attachment Document Number. Click **Search**.

 - e. audit the parcel or Title; or
 - f. view the history of the parcel or Title.

The screenshot displays a web interface for 'Client Detail'. At the top, there is a dark blue header with the text 'Client Detail' in white. Below this, the client information is shown: 'Client Number: 100010529', 'Name: Doe, Jane', and 'Address: 0000 New Test Street, New Test, Yukon, Canada, Y1A0H0'. Underneath the address, there are five expandable sections, each with a blue square icon containing a white plus sign. The sections are: 'Titles (31)', 'Interests (245)', 'Dependent Titles (25)', 'Alternate For (1)', and 'Packet (0)'. At the bottom of the interface, there is a dark blue button with the text 'Back to Search' in white.

5 Other types of searches

5.1 Search for a sub-interest

Sub-interests do not show on a Title search. To see that information, you will need to search the interest number.

If the Title and the amendment date do not match the dates in the audit, this is a hint that an interest has a sub-interest that was registered.

1. In the **Register of Titles**, search by any of the following: Title number, parcel number, packet number, owner name or land description.
2. Click on **Title** and then click on the **magnifying glass** next to **Audit** under **Parcel Detail**.

6 How to find your land description

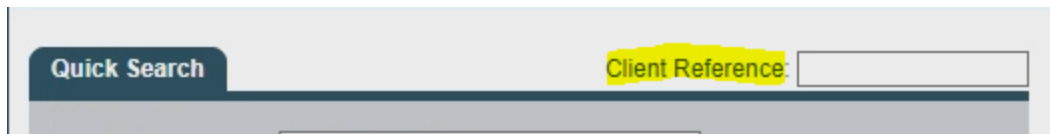

Your land description (also sometimes referred to as Legal Land Description or LLD) will consist of a lot, block, quad and/or plan number. To search in the portal, you must either provide a minimum of two criteria or the plan number.

There are a variety of ways to find your land description:

1. call the City of Whitehorse (if the property is in city limits) to have the civic address changed to a land description or call your municipal office;
2. find it on your Property Tax notice;
3. find it on your Property Assessment notice; or
4. search by visiting the [geomatics website](#).

7 Client reference number

For all searches, the **client reference number** can be added at the top of each search and will appear on the financial statements.

Quick Search

Client Reference:

You may also enter the **client reference number** when logging in. All searches done in this section will have that client reference in the statements.
