Yukon Forum Action Plan

This Action Plan is the result of the collaborative work being done at the Yukon Forum and direction from Yukon First Nation and Government of Yukon leaders as committed to in the *Working Together Declaration*.

The goal of the Yukon Forum is to foster reconciliation, develop strong government-to-government relations and collaborate on priorities shared by the Government of Yukon and Yukon First Nations.

This document lays out the next steps that will be undertaken by a number of joint working groups under the following priority areas: Fiscal Relations, Land Claims and Self-Government Agreement Implementation and Bi-lateral/Tri-lateral Processes for Engagement.

Intergovernmental collaboration on this scale has not been done before. Establishing effective processes takes time, careful consideration and flexibility in order to be successful.

The joint priorities identified by our governments address long standing and complex issues. In many cases we are not starting from scratch – past reviews have been completed and existing processes are in place. Many of these priorities also require engagement and participation from the Government of Canada.

As stated in the *Working Together Declaration*, our governments are committed to working together in the spirit of reconciliation and collaboration.

This updated Action Plan recognizes the work we've accomplished to date and outlines the next steps to advance our shared priorities.
