STATISTICS

- The Sexual Offender Risk Management Program (SORMP) is a monitoring and treatment program
 for sexual offenders. The SORMP provides assessment, individual and group treatment as well as
 monitoring for sexual offenders. The group treatment program is every week and is cognitive

 empathy, and relapse prevention (risk management). The group is open-ended and long-term.
- Coupled with treatment is the offender's Risk Management Team made up of formal and informal support resources who assist in monitoring, and who help the offender manage his behaviour in the community. These teams are established for the duration of the Probation Order. An additional program to the mainstream sexual offender program is the FAS/FAE and developmentally delayed component. Group and individual therapy and risk management teams are utilized for this client base. Groups are open ended and long term. There is an accumulated caseload as offenders often receive two three years probation. Additional services include support and education to victims, families and communities.

A number of variables have affected the numbers this year: The Crown now has 3 victim assistance workers to take on most property offences and to share the load in some other communities; we are trying to encourage a healthy work environment by supporting staff in maintaining manageable caseloads and our caseloads now tend to be more intensive and long term cases due to the impacts of this type of crime.
