ELIGIBILITY:

This policy covers eligible individuals insured under the *Travel for Medical Treatment Act* (and Regulations) and the *Yukon Health Care Insurance Plan Act* who are pre-approved to travel by air or land outside of Yukon to receive publically funded midwifery services; as well as their approved travel escorts.

POLICY:

- All medical travel out of Yukon must be certified by an authorized practitioner and approved by the Medical Travel Office in advance of travel.
- The authorized practitioner submits a **Medical Travel Application** form for out of territory travel on behalf of the patient (and requests an escort if applicable) for review by the Chief Medical Officer of Health.
- In addition to the application for medical travel from a qualified medical practitioner in Yukon, prior approval will need to be submitted to by a Registered Midwife in the other jurisdiction to provide confirmation that they have the ability to bill Yukon reciprocally.
- Once the application is approved, a Medical Travel Officer will contact the patient to arrange scheduled air travel.
- Eligible pregnant individuals will be entitled to a daily subsidy up to a maximum of 28 days prior to birth and 7 days post partum. Exceptions will be reviewed for additional coverage on a case by case basis if requested by an authorized practitioner or Registered Midwife. All requests for an exception will need to be approved in advance by the Chief Medical Officer of Health.
- Approved travel escorts will be eligible for the daily subsidy up to a maximum of 15 days.
- Any requests for additional family members will not be approved, and therefore their additional travel costs would be the sole responsibility of the individual.
- For subsidy payment, the eligible individual must submit a completed **Medical Travel Subsidy Form** clearly indicating the individual's departure and return dates from home community and verifying that medical services were received. The individual has one calendar year to submit this form to Insured Health Services.
- Any additional days that a patient and approved escort are out of the territory and not on medical travel status are considered personal days, and therefore travel insurance is strongly recommended.
