FOR RELEASE #09-229
 September 29, 2009

Grants Awarded for Yukon FireSmart Projects

WHITEHORSE – Yukon communities will benefit from \$1.3 million in FireSmart grants earmarked for 33 projects in 2009-10, Department of Community Services Minister Archie Lang announced today.

"The success of the FireSmart program over the years is thanks to the partnership between the Yukon government and recipient organizations, including municipal and First Nation governments, community associations and non-profit societies," Lang said.

The FireSmart program enables communities to undertake work that serves to reduce the threat of wildfire in and around Yukon communities, and it provides employment opportunities for Yukoners in the fall and winter.

Of the total \$1,315,400 in approved project funding, eight municipal projects will share \$320,000, twelve First Nation governments will share \$476,000, nine communities associations will share \$350,000 and four non-profit organizations will share \$166,000.

FireSmart applications are approved by the Departments of Community Services and Energy, Mines and Resources. Projects are funded based on field assessments conducted by FireSmart officials with Community Services and separate interdepartmental review committees.
