A-8076	Environment	Refused	No	All Global Positioning System, Very High Frequency and satellite collar relocation data, in entirety, for the caribou/caribou herds in Yukon and including transboundary movements into neighbouring jurisdictions. This data may span 1980 to present. This should include collar fix data for any caribou, over the herd's entire range. The information is contained by the Department of Environment in two to four excel spreadsheets, in two to 20 excel workbooks. Requesting these spreadsheets in full. Fulfillment of this request should include any data that was provided from the collar through Argos, Iridium or other remote transmission, as well as through manual download. This will include but not be limited to the following fields: LOC_NUM, NAME, PTT_ID, YT_DATE, YT_TIME, CODE, LATITUDE, LONGITUDE, BEST, MONTH, DAY, JDAY, YEAR, SEAS_NUM, SEASON, CONSEC_SEAS_NUM, CA_YEAR, HERD, SESSION.
