

**Closed Access to Information Requests for Program Information (April 2020)**

Request Number	Public Body	Response	Fees Paid	Request Summary
A-8217	Child and Youth Advocate	Refuse to confirm or deny	N	All records about deaths of infants as a result of unsafe sleep practices, such as (but not limited to) co-sleeping. Please include, but do not limit the response to, statistics about the number of infants who died as a result of unsafe sleep practices, coroner's reports, child death reviews, records related to inquests and all other reviews/investigations into deaths involving unsafe sleep practices. For reviews, please include the copy of the review, all recommendations made and any responses. 01 January 2009 to 31 January 2020. Please note, we consider "unsafe sleep deaths" to include a number of circumstances, most often where the cause of death recorded is asphyxiation or suffocation. But it is sometimes recorded as or has sometimes been recorded as Sudden Infant Death Syndrome or Sudden Unexpected Infant Death Syndrome. For that reason, the circumstances of the death may be needed in order to determine whether the record is relevant to the request. Unsafe sleep situations can include but are not limited to instances of co-sleeping (infant and adult or older child in same bed), inappropriate sleep surfaces (soft beds, water beds, armchairs, sofas, pillows etc), items in cribs (loose blankets, bumper pads, stuffed toys, etc). Timeframe: 01 January 2009 - 01 February 2020
