### **Final Response ATIPP Access Request 22-713**

---

#### **Decision**

The Department of Environment has searched the Finance, Client, Business and Technology Solutions, Finance, Environmental Protection and Assessment and Conservation Officer Services branches and has identified no responsive records to Access Request 22-713.

#### **No Record Found**

The Department of Environment has no responsive information relating to the request noted below:

*Financial contracts awarded through RFP process or by DM signature related to the services of cleanup land; specifically metals and vehicles (cars, trucks, passenger vehicles, etc). What was the \$ amount awarded? How contracts were awarded to Urban Auto Recycling, specifically for the Industrial McRae lot located at 99 Boulder Road that was leased by [NAME] and the Dawson Group of Companies (property where bears were destroyed) and the Deep Creek Solid Waste Facility (60 Deep Creek Road). I would like to know the process and how one company was selected and compensated for the work. Did YG provide financial incentives (subsidization) for the transportation of metals and crushed vehicles? -Industrial McRae Lot*

#### **ADDITIONAL INFORMATION:**

Question from Dept March 8, 2023: What timeframe are you looking for? Having a timeframe will assist us for the records search. For example, are you looking for a timeframe between

22-713

January 1, 2018 to present (March 08, 2023) or is there a different timeframe that you are interested in?

RESPONSE from Dept March 17, 2023: We have not heard back from the applicant. The COs visited the site in July of 2018 which seems to be the start of our involvement with the issue. We figure we will take the search back to then. Unless of course the applicant suddenly gets back to us in the future. I see the contract was awarded in the 2021/2022 fiscal year by EMR.

### **Final Costs**

There is no charge to the applicant.
