### Final Response ATIPP Access Request 23-202

---

The Department of Highways and Public Works has searched Property Management and has identified records responsive to Access Request 23-202 noted below:

**The YG Main Administration building was opened on May 25, 1976. I would like the design plans for the original building and the actual construction of the building, including the materials used, the mechanical systems in place, the designed work spaces. I am specifically wanting to know if the building had a humidifier and if it was designed to be an open concept building. It was later partitioned. How were the mechanical systems improved to accommodate enclosed areas? The plan of the duct work installed, and is there a HRV system now? How many offices existed and the number of staff working in the building? Was there a maximum number of people it was designed for?**

#### **NARROWED SCOPE:**

**#1: Go ahead and request the floor plans only. I hope those will provide the mechanical system.**

**#2: I'd like to request the building plans for May 25, 1976 to December 31, 2000.**

#### **Decision**

Highways and Public Works has approved the following response to this request:  
**Access Granted in Full.**

### **Final Costs**

There is no charge to the applicant.
