### Final Response ATIPP Access Request 23-589

The Department of Energy, Mines and Resources has searched Human Resources and has identified records responsive to Access Request 23-589 noted below:

**“Last summer a public engagement survey regarding barriers to Indigenous recruitment and retention within the Government of Yukon closed after one month. I am looking for preliminary results from that survey. I am also looking for statistics regarding trends in Indigenous employment within the Government of Yukon per year. I would like to compare and contrast numbers from 2014 to 2024 so I can see if there have been jumps or dips over the last ten years. I'm looking for statistics by department and for the entire entity of the Yukon government, if possible. Specific types of records would include discussions of strategies for Indigenous recruitment and retention; as much Yukon census data as is available, particularly outlining statistics about the Indigenous population; internal "census" data of Yukon government employees with demographic statistics from as many departments as possible AND from YG as a single entity, particularly outlining statistics about Indigenous employees; and results from the June 26-July 31 Public Engagement survey "Identifying barriers to Indigenous recruitment and retention.". Timeframe: January 1, 2014 - February 18, 2024”**

Decision
