

GOVERNMENT OF YUKON

Financial Statement Discussion and Analysis for the year ended March 31, 2018

Introduction

The Yukon Public Accounts is a major accountability report of the Government of Yukon (“the Government”). The purpose of the financial statement discussion and analysis is to expand upon and explain information contained in the consolidated financial statements, which are presented in Part Two of the Yukon Public Accounts. Responsibility for the preparation of this discussion and analysis rests with management of the Department of Finance.

2017-18 Highlights

- The Government reported an annual surplus of \$53 million compared to a \$33 million surplus in 2016-17. Total revenues increased by \$44 million (3%), while expenses increased by \$20 million (2%), from the previous year. Eighty-six percent of the \$20 million increase in expenses was in the health and social services function.
- The annual surplus of \$53 million was \$20 million (59%) higher than the initially planned surplus of \$33 million. Lower than expected revenues of \$12 million (1%), were offset with lower than expected expenses of \$30 million (2%) contributing to a higher than expected surplus. Revenues were lower than budgeted largely due to lower than expected contributions and service agreements with Canada while expenses were lower than budget largely due to lower than expected expenses in the community and transportation, education and natural resources functions.
- The Government continues to be in a positive net financial asset position, with a balance at March 31, 2018 of \$248 million. To have net financial assets means the government’s financial assets exceed its financial liabilities.
- In 2017-18, the Government recorded tangible capital asset additions for the development of assets such as buildings and transportation infrastructure of \$146 million, compared to \$151 million in the previous year. In 2017-18, the Government spent a total of \$70 million on the construction of the Whistle Bend Continuing Care Facility. The Whistle Bend Continuing Care Facility is scheduled to be completed in the fall of 2018 with a total projected cost of \$147 million.
- In 2017-18, the Government contributed \$18 million towards the Whitehorse General Hospital’s expansion project. All phases of the expansion project are now complete and the official opening date was in January 2018. The project was finished on budget at a cost of \$72 million.
- On September 17, 2018, Standard & Poor’s Rating Services affirmed its ‘AA’ long-term issuer credit rating of Yukon Territory. Standard & Poor’s stated that, in part, the ratings reflected their assessment of Yukon’s robust liquidity, very manageable debt burden, limited contingent liabilities, sound financial management and stronger economic growth returning in the 2018 – 2020 periods.

for the year ended March 31, 2018**

Surplus for the Year

The Government's annual surplus or deficit resulting from its operations is dependent on various factors. Two of the most significant factors are:

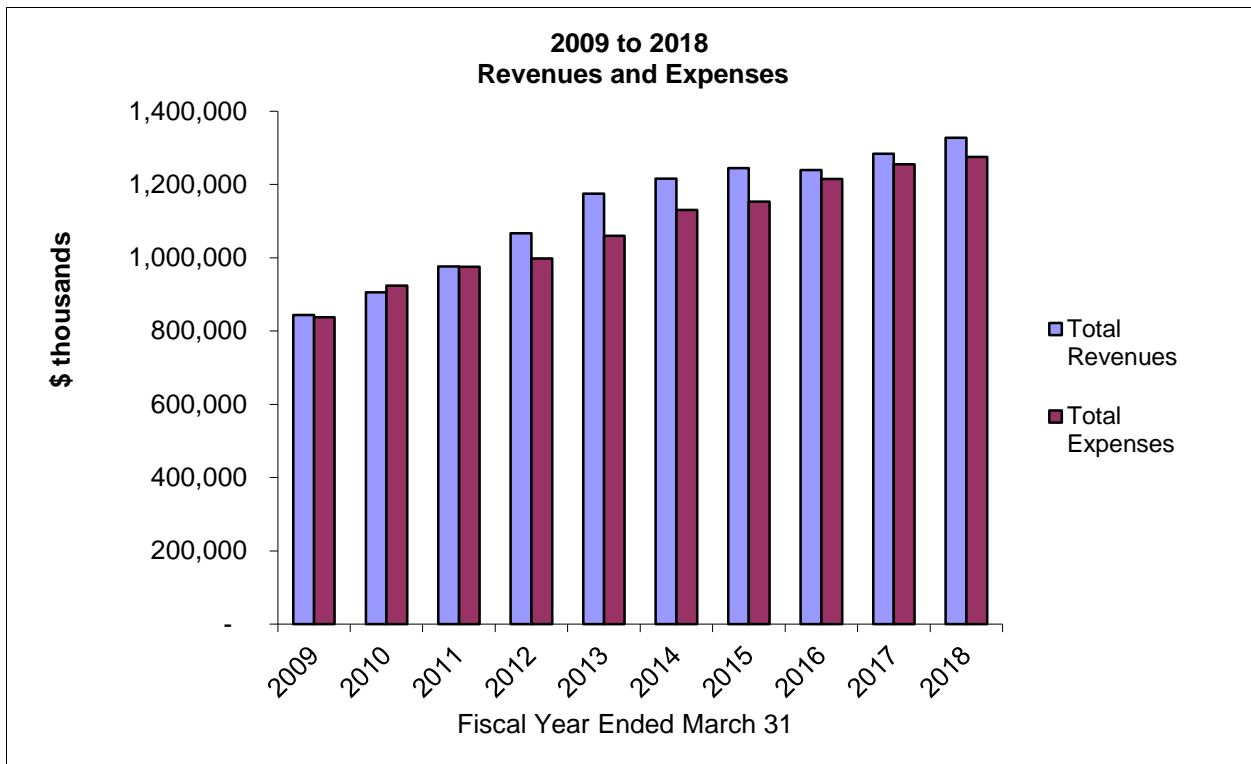

- total revenues, of which the Formula Financing grant from the Government of Canada makes up the largest share; and
- direct government spending and operating transfers to individuals and other public organizations, such as municipalities.

The surplus of \$53 million for the year was an increase of \$20 million (62%) from the previous year's surplus of \$33 million and \$20 million (59%) more than the initially planned surplus of \$33 million. Revenues increased by \$44 million from the previous year's actual and were \$12 million less than initially planned. Actual expenses (net of prior years' expense recoveries) of \$1.27 billion for the year were less than the initially budgeted amount of \$1.31 billion.

Major revenue variances between the current and prior year include a \$25 million (3%) increase in the Formula Financing grant from the Government of Canada, and a \$21 million (19%) increase in contributions and service agreements from Canada.

Expenses increased by \$20 million (2%) with expenditures for health and social services contributing to the majority of the increase. Education and general government also had increased expenditures while natural resources had a decrease from prior year expenditures.

The chart below illustrates the trend between revenues and expenses over the last ten years. The amounts are taken directly from the respective year's Public Accounts, without reflecting changes in accounting policies over the years.

**Financial Statement Discussion and Analysis
for the year ended March 31, 2018**

Net Financial Assets and Accumulated Surplus

At March 31, 2018, the Government's financial assets exceeded its liabilities, resulting in net financial assets of \$248 million (\$274 million at March 31, 2017). This important indicator shows that the Government has financial assets on hand to finance future operations and that the Government was able to provide current services without depending on future revenues.

The Government's net financial assets decreased by \$26 million in 2017-18. This decrease was largely due to the acquisition of tangible capital assets. In 2017-18, the net effect of tangible capital assets related activities on net financial assets was a decrease of \$79 million (decrease of \$88 million in 2016-17).

The chart below illustrates net financial assets over the last ten years.

(Note: Prior year amounts are shown as reported in the respective year's Public Accounts).

Accumulated surplus consists of net financial assets and non-financial assets such as tangible capital assets. The accumulated surplus of the Government at March 31, 2018 was \$1.9 billion (\$1.8 billion at March 31, 2017).

GOVERNMENT OF YUKON

Financial Statement Discussion and Analysis for the year ended March 31, 2018

Revenues

In 2017-18, the Government's total revenues increased from the previous year by \$44 million (3%) to \$1.33 billion.

The Government receives the majority of its revenues from the Government of Canada through the Formula Financing grant, the Canada Health transfer and the Canada Social transfer. In 2017-18, the Government received \$919 million as the Formula Financing grant. This was an increase of \$25 million (3%) from the previous year. The Canada Health transfer was \$40 million and the Canada Social transfer was \$15 million. These transfers increased from the previous year by a total of \$3.1 million (6%).

In addition to the Formula Financing grant, the Government receives funding from the Government of Canada for purposes such as health and social programs and education as well as funding for infrastructure development. Contributions and service agreements from Canada increased from the previous year by \$21 million (19%) to \$135 million. This increase was largely due to an increase in the contributions received from the New Building Canada Fund and the Clean Water Wastewater Fund.

Taxes and general revenues include taxes on corporate income, personal income, tobacco, liquor, fuel, insurance premium and property as well as licences and fees such as motor vehicle licences and business/professional fees. Taxes and general revenues decreased from the previous year by \$4 million (2%) to \$157 million. This was largely due to an \$11 million decrease in the sale of land. This decrease was offset by modest increases in various other types of revenue in this category.

Funding and service agreements with other parties remains unchanged at \$47 million.

The income from investment in government business enterprises reported in the financial statements represents the net results of government corporations that are categorized as government business enterprises ("GBE"). Government of Yukon business enterprises include the Yukon Liquor Corporation and the Yukon Development Corporation, which reports its results consolidating the Yukon Energy Corporation. Income from investment in GBE decreased from the previous year by \$1 million, or 7%, to \$15 million.

Revenues were less than the initially budgeted amounts by \$12 million. This was primarily due to lower than forecast revenues from Canada.

In 2017-18, the composition between different types of revenue remained consistent with previous years.

for the year ended March 31, 2018**

Revenue by source is illustrated in the chart below:

GOVERNMENT OF YUKON

**Financial Statement Discussion and Analysis
for the year ended March 31, 2018**

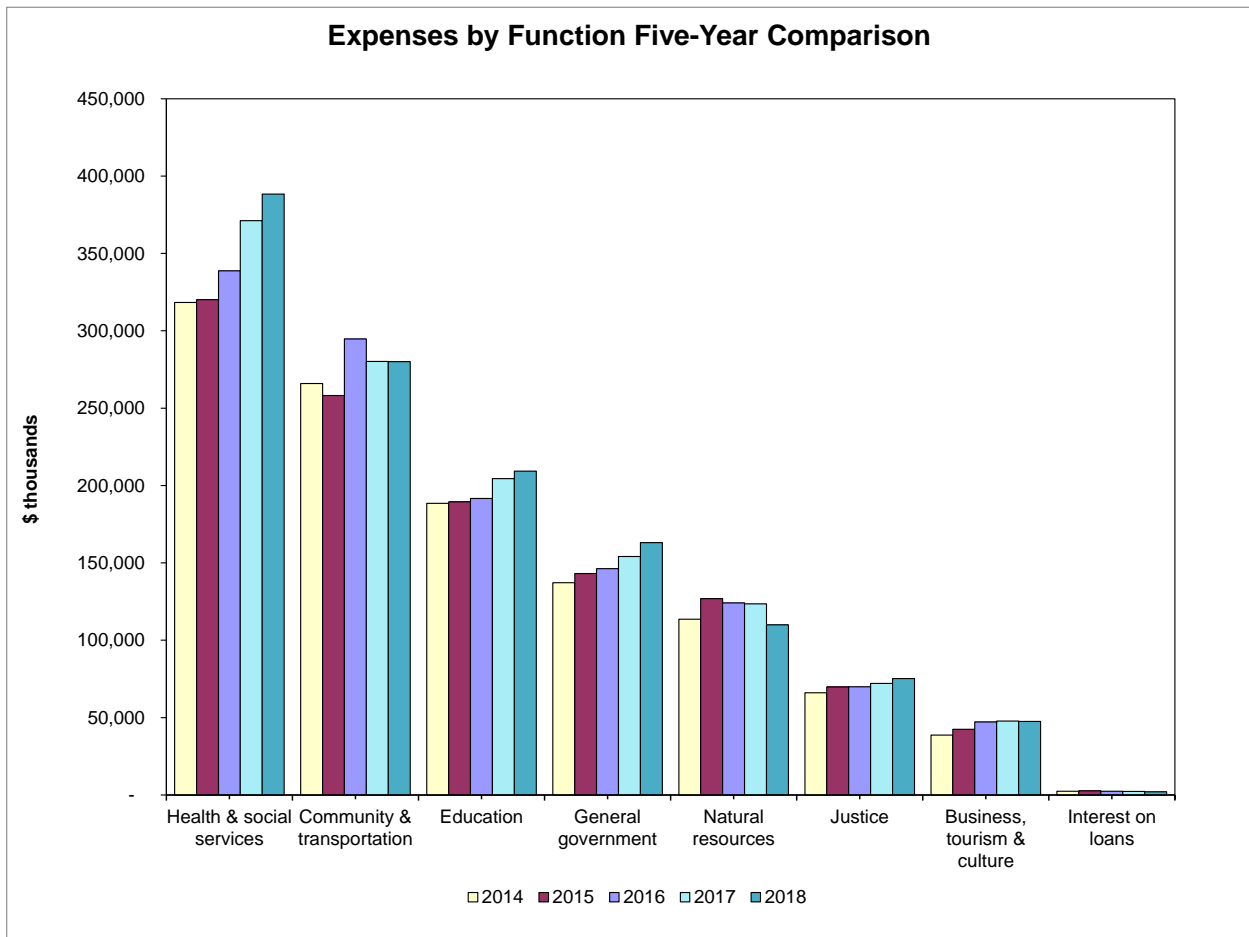

Expenses

Overall, expenses increased from the previous year by \$20 million (2%) to \$1.28 billion. The largest increase was in the health and social services function, with an increase of \$17 million, followed by a \$9 million increase in general government while the natural resources function decreased by \$14 million.

As for the type of expenses, the highest percentage was in wages and benefits (45%), followed by procurement of goods and services (33%), transfer payments (17%) and amortization expenses (5%). These percentages are consistent with those in previous years.

In 2017-18, the ratio of expenses by function remained consistent with the previous year, with health and social services, community and transportation, and education comprising 69% of total expenses (68% in 2016-17).

The chart below illustrates a five-year comparison of expenses by function.

(Note: Prior year amounts are shown as reported in the respective year's Public Accounts).

for the year ended March 31, 2018**

Assets

Financial Assets

Financial assets consist of assets available to discharge existing liabilities or to fund future activities. At March 31, 2018, the value of total financial assets was \$685 million, which is a decrease of \$14 million from the previous year. Within financial assets, cash and cash equivalents increased by \$1 million from the previous year while temporary investments decreased by \$51 million. Cash and cash equivalents and temporary investments accounted for \$195 million, or 29% of the total financial assets.

Financial assets by type as a five-year comparison are shown below:

(Note: Prior year amounts are shown as reported in the respective year's Public Accounts).

GOVERNMENT OF YUKON

Financial Statement Discussion and Analysis for the year ended March 31, 2018

Major categories of the Government's financial assets are described below.

Cash and cash equivalents

Cash and cash equivalents are bank balances, short-term investments that mature less than 90 days from the date of purchase and cash on hand.

At March 31, 2018, the Government held \$32 million in cash and cash equivalents, which is an increase of \$1 million from the previous year.

Temporary and portfolio investments

Temporary investments are investments with maturity dates of 90 days or more, at the time of purchase, but less than one year. Temporary investments include term deposits, treasury bills, GICs, and funds that include short term debt securities of Canadian governments and corporate issuers. At March 31, 2018, the Government held \$163 million in temporary investments compared to \$215 million the previous year.

Portfolio investments are investments that are expected to be realized or have terms to maturity of greater than one year from the date of acquisition. Portfolio investments include floating rate notes and funds that include bonds and equities. As at March 31, 2018, the government held \$33 million in portfolio investments compared to \$27 million in the previous year.

As of March 31, 2018, \$32 million of the temporary and portfolio investments were designated (\$29 million at March 31, 2017) in order to meet obligations under Part 3 (Supplemental Plan) of the *Legislative Assembly Retirement Allowances Act* (Yukon) as well as the "Severance allowance" section of the *Legislative Assembly Act* (Yukon).

Due from Government of Canada

At March 31, 2018, the Government had receivables from the Government of Canada in the amount of \$76 million, 99% of which were outstanding claims on cost-sharing agreements and projects delivered on behalf of the federal government.

Advances to Territorial corporations

The Government has advanced a total of \$39 million under a loan agreement with the Yukon Development Corporation ("YDC") for a construction financing loan. The monies advanced were an interest-bearing loan that was used to assist in the development of the Whitehorse diesel – natural gas conversion project, which was carried out by the Yukon Energy Corporation, YDC's wholly owned subsidiary. The government and YDC entered into a new loan agreement effective March 30, 2018. The initial term of the loan is to March 31, 2023 and pursuant to the agreement, the loan may be extended for two additional five year terms upon mutual consent of the parties. The per annum interest rate will be set based on one year CDOR plus 40 basis points in effect on April 1 each year. The rate of interest effective March 30, 2018 is 2.501%. The new loan agreement requires principal repayments of \$1 million on March 31 each year and full repayment of any principal outstanding at the end of each loan term if the loan is not extended.

Loans receivable

The Government has loans receivable of \$67 million, of which \$42 million, or 64%, were Yukon Housing Corporation mortgages receivable, followed by \$10 million, or 15%, in land sale related loans receivable that are also administered by the Yukon Housing Corporation.

GOVERNMENT OF YUKON

**Financial Statement Discussion and Analysis
for the year ended March 31, 2018**

Inventories for resale

Inventories for resale totalled \$67 million as of March 31, 2018. This was an increase of \$14 million (26%) from the previous year. The inventories largely consist of lots that were developed by the Government for sale to the public. In 2017-18, the Government spent \$18 million to develop mainly residential lots. Of the \$18 million, \$17 million was spent on the Whistle Bend subdivision in the City of Whitehorse.

Investment in government business enterprises

Investment in government business enterprises, which are self-sustainable government corporations, represent equities of the Yukon Development Corporation (“YDC”) and the Yukon Liquor Corporation. YDC had an investment value of \$188 million at March 31, 2018 (2017 - \$182 million). The Yukon Energy Corporation, which supplies and sells power in the Yukon, is the wholly-owned subsidiary of YDC.

Non-financial Assets

Non-financial assets are assets that do not normally provide resources to discharge existing liabilities, but instead are normally used to deliver future government services or may be consumed in the normal course of operations. Non-financial assets include tangible capital assets, inventories of supplies, and prepaid expenses. Tangible capital assets are the largest category of non-financial assets.

Tangible capital assets

At March 31, 2018, the Government owned and used tangible capital assets with a net book value of \$1.592 billion for its program delivery, an increase of \$79 million from the previous year net book value of \$1.513 billion.

Tangible capital assets by type as a five-year comparison are shown below:

*For additional detail see schedule C

GOVERNMENT OF YUKON

**Financial Statement Discussion and Analysis
for the year ended March 31, 2018**

In 2017-18, the Government made the following investment in tangible capital assets:

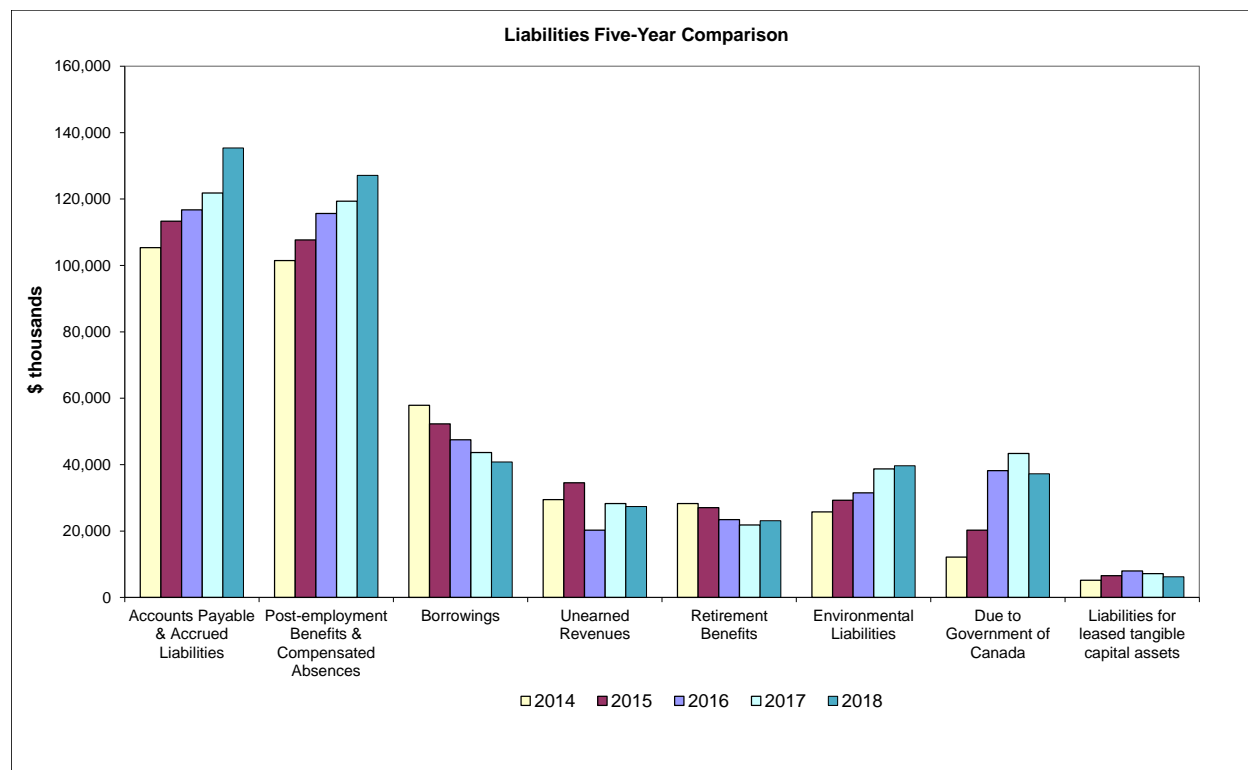

Opening balance at April 1, 2017	\$ 1,513 million
Additions during the year	146 million
Less: Disposals and write-downs	(1) million
Amortization	(66) million
Balance at March 31, 2018	\$ 1,592 million

The Government's \$146 million investment was largely spent on buildings, transportation infrastructure and equipment and vehicles.

In accordance with the recommendations of the Public Sector Accounting Board of the Chartered Professional Accountants of Canada, the value of transferred Crown land is not reported as a tangible capital asset.

Liabilities

At March 31, 2018, the liabilities of the Government totaled \$437 million (\$424 million at March 31, 2017), which is equivalent to 64% of the financial assets of the Government. A five-year comparison of the Government's liabilities by category is illustrated below:

(Note: Prior year amounts are shown as reported in the respective year's Public Accounts).

GOVERNMENT OF YUKON

Financial Statement Discussion and Analysis for the year ended March 31, 2018

Major categories of the Government's liabilities are described as follows:

Accounts payable and accrued liabilities

Accounts payable and accrued liabilities are the Government's liabilities that are generally paid within a year. The total accounts payable and accrued liabilities of \$135 million is an increase of 11% from the previous year's total of \$122 million.

Post-employment benefits and compensated absences

The Government's second largest liability, after accounts payable and accrued liabilities, is post-employment benefits and compensated absences. Post-employment benefits are provided to employees after employment but before retirement. These benefits consist of severance pay and a portion of sick leave and vacation leave that are paid out to employees at termination of employment. Compensated absences are benefits such as sick leave and vacation leave that are paid to employees during their employment. The Government uses actuaries to estimate its post-employment benefits and compensated absences liabilities. The post-employment benefits and compensated absences liabilities at March 31, 2018 were \$127 million (\$119 million at March 31, 2017).

Borrowings

The largest portion of the \$41 million reported as borrowings relates to the Yukon Hospital Corporation's demand term installment loans totaling \$37 million (\$40 million at March 31, 2017). The Yukon Hospital Corporation used the loans to finance the costs of the new staff residence/medical service building in Whitehorse, renovations to an extended care facility in Whitehorse, and new hospitals in Watson Lake and Dawson City. During 2017-18 the Yukon Hospital Corporation paid down these loans by \$3 million.

Mortgages and loans payable by the Yukon Housing Corporation represent a further \$3 million (\$4 million at March 31, 2017) of the Government's borrowings.

Unearned revenues

Unearned revenues of \$27 million reported as of March 31, 2018 (\$28 million at March 31, 2017) are mostly comprised of funding received from the Government of Canada that has not yet been expended in accordance with funding agreements.

Retirement benefits

Retirement benefits liabilities totaled \$23 million at March 31, 2018 (\$22 million at March 31, 2017) and represent the Government's extended health benefit obligations, which are provided to retired employees, and various pension plan liabilities. Pension plan liabilities are those for the Members of the Yukon Legislative Assembly, Territorial Court judges and employees of Yukon College and the Yukon Hospital Corporation.

The employees of the Government of Yukon participate in the Public Service Pension Plan administered by the Government of Canada; therefore, no pension plan liability is recorded for Government of Yukon employees. Contributions payable, determined by the Government of Canada, represents total obligations for the Government employees' future pension benefits. The Government contributed \$36 million to the Public Service Pension Plan in 2017-18 as the employer's share (\$36 million in 2016-17).

GOVERNMENT OF YUKON

Financial Statement Discussion and Analysis for the year ended March 31, 2018

The most recent actuarial valuations for funding purposes indicate that, if valued on the basis that the pension plan were terminated as of the valuation date, Yukon College had a deficit of \$9 million and the Yukon Hospital Corporation had a deficit of \$24 million (solvency deficits). Yukon College entered into a letter of credit in lieu of making solvency payments. Yukon Hospital Corporation also entered into a letter of credit in lieu of making solvency payments as well as making cash payments.

Environmental liabilities

At March 31, 2018, the Government has recorded \$40 million (\$39 million at March 31, 2017) as a liability for the costs related to the remediation of contaminated sites for which the Government is responsible. Of the liabilities, \$12 million (29%) is for highway maintenance camps and airports and \$9 million (23%) is for landfills that the Government is responsible for maintaining.

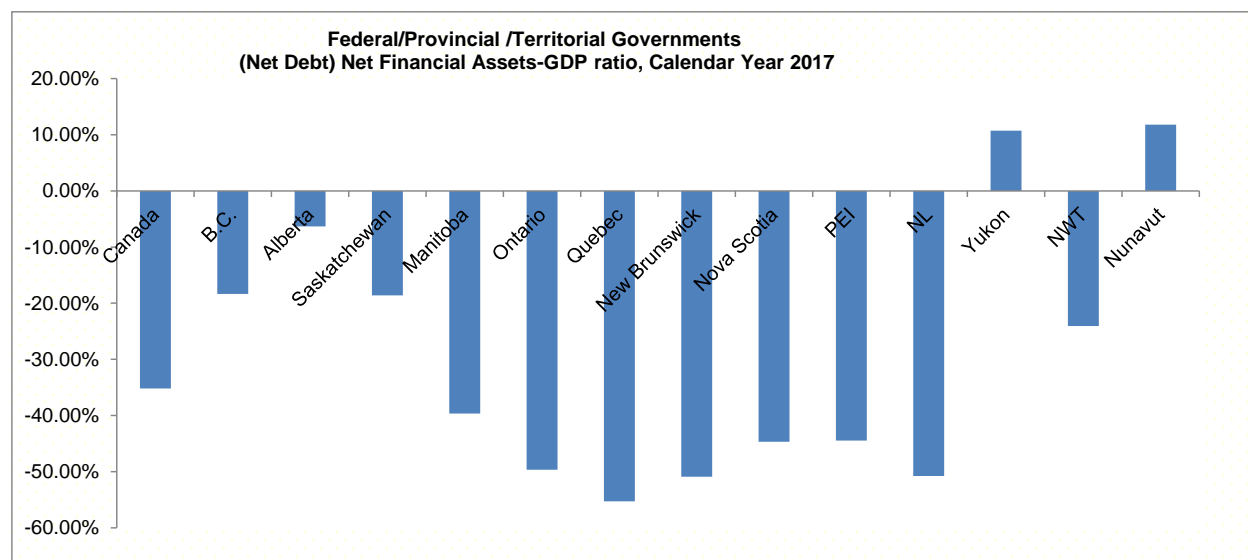

Due to Government of Canada

Accounts payable to the Government of Canada at March 31, 2018 were \$37 million (\$43 million at March 31, 2017). These amounts consist primarily of amounts due under various agreements for Income Taxes and Public Service Pension Plan contributions payable for the month of March 2018.

Indicators of Financial and Economic Conditions

Canadian Jurisdictional Comparison of (Net Debt) Net Financial Assets to Gross Domestic Product (GDP)

The bar graph below shows a Canadian jurisdictional comparison of (net debt) net financial assets to GDP ratio. Yukon and Nunavut are the only jurisdictions that have a positive ratio. A positive ratio indicates banked resources to finance future operations and obligations. A negative ratio indicates that the government must rely on future revenues to discharge existing liabilities.

Source: GDP - Statistic Canada 2017 based on preliminary estimates. Net Debt/Net Financial assets – as at March 31, 2018 based on released Public Accounts (March 31, 2017 if the information was not available at the time of publication).

Population and Unemployment rate (Calendar Year 2017)

With growth in 2017, Yukon's population has posted gains for 14 consecutive years. In 2017, total population exceeded 39,000 for the first time.

Yukon's unemployment rate averaged 3.6% in 2017, which was below the national average of 6.3%. As noted in the chart below, over the ten years in question, Yukon's unemployment rate has been below the Canadian average.
